

English

Building on skills learnt in year 4, we will continue to develop the children's confidence with higher level features of writing such as complex sentences, use of synonyms and developing links and connections in and between paragraphs. We will be reviewing topics missed during the summer term of year 4 such as poetry, instruction and play scripts.

We will continue to learn and practice the spelling patterns and key words for Year 5, which includes plurals, prefixes and suffixes and silent letters. We will also look at key words missed from year 4, which include homophones.

We recommend you share books with your child regularly at home. The oxford owl website, used during school closure for home learning, is still available to use online.

Topic

In History, we will be learning about the Anglo Saxons.

Science

Our topic this half term is materials and their properties including how they change when heated and cooled.

PE

Pupils will be developing skills in outdoor games. P.E days are Tuesday and Wednesday. Please ensure that your child has their PE kit in school every day.

Art/D&T

We will be focusing on developing the children's drawing skills using a range of stimuli and materials.

Year 5 Autumn Topic Term Curriculum Map

Class Assemblies

Due to our current situation there will be no class assemblies until further notice.

Homework

In line with the school's homework policy, children are expected to read on a daily basis and be prepared to share their learning with the class.

Spellings

Handed out on Thursdays and tested the following Thursday.

PSHE

We will begin the year focusing on children's well-being and settling back into school life. The children will also be focusing on our school values and looking at British Values and how to embed them into society.

Maths

This term we will be continuing to develop confidence and fluency in mental calculations involving whole numbers, counting and place value.

We will be reviewing topics missed during the summer term of year 4 such as fractions and time.

Please help your child to learn and practise all of their times tables up to and including 12x. It is also essential that you encourage and support your child in learning the following key facts; Doubles and halves, number bonds including decimals and measure conversions.
