

The Three Little Princesses

9 Once upon a time, there were three little princesses.
19 They lived in a tall, strong castle with their mother,
30 the queen. The queen told them one day that it was
41 time for them to go out into the world and build
44 their own castles.

53 The first little princess built her castle out of
63 cardboard and it took her no time at all. The
72 second little princess built her castle out of wood
80 and finished it quite quickly. The third little
91 princess built her castle out of stone. It took her a
100 long time and she was very pleased with it.

108 A big, bad, fire-breathing dragon saw the princess
115 in the cardboard castle and flew over...

Questions

1. What did the first little princess build her castle out of?

2. Find and copy an adjective in this story.

Answers

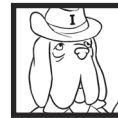

1. What did the first little princess build her castle out of?

The first little princess built her castle out of cardboard.

2. Find and copy an adjective in this story.

Accept any correct adjective from the story, such as: little

3. Which princess do you think worked the hardest on her castle and why?

Pupils' own responses, such as: I think the third princess worked hardest because it took her a long time and she was very pleased.

4. What do you think will happen next?

Pupils' own responses, such as: I think the big, bad dragon will burn down the cardboard castle and the wooden castle but he won't be able to burn down the stone castle.
