

# Diary of a Vet

2 Dear Diary,

13 I got to the clinic at half past 8. My first job was  
23 to check on the animals that stayed in overnight.  
32 I took the temperature of a poorly dog and was  
41 pleased to see she was much better.

51 It was a busy morning! First, I had a rabbit  
60 that needed its nails clipping and then a hamster  
68 who needed some medicine for a tummy ache.  
79 After that, I had a cat who needed an X-ray, a  
89 budgie who had a broken wing and a lizard with  
98 a sore leg. I was very tired by lunchtime!

## Questions

1. What time did the vet get to the clinic?

\_\_\_\_\_

2. Find and copy the word that the vet uses to describe how they felt when they saw the dog was better?

\_\_\_\_\_

3. What was the vet's first job?

\_\_\_\_\_

4. Why do you think the vet was very tired by lunchtime?
